SKILLS

Full Stack Web Development

- React & Next.js
- TypeScript & JavaScript
- Node.js
- PHP & C++
- Python
- SQL (MySQL) & MongoDB

QA & Software Testing

- Manual & Regression Testing
- Selenium Test Automation
- Postman (API Testing)
- Test Case Design
- Bug Tracking (Jira)

Hardware Testing

- PCB Diagnostics & Repair
- GPS Telemetry Systems
- CAN-Bus & Serial Communication
- Firmware Flashing & Validation

IT & Tools

- IT Support & Troubleshooting
- Git
- phpMyAdmin
- Resend (Email API)
- Estándares ISO

LANGUAGES

- English (Fluent)
- Italian (Fluent)
- Spanish (Native)

PROFESSIONAL SUMMARY

Electronic Technician with over 10 years of experience in hardware quality control (QA), PCB diagnostics, and telemetry systems, now specialized as a Full Stack Web Developer and Software QA Tester.
I possess strong skills in modern web development (React, Next.js, Node.js), manual and automated testing (Selenium), API testing (Postman), and IT support. My unique background combines hardware and software expertise, enabling deep system analysis and reliable defect detection across both web and embedded environments. Currently pursuing the ISTQB certification.

WORK EXPERIENCE

Novanta Inc - Barcelona, Spain 2024 - 2025
Production Operator & QA Specialist

- Assembly and testing of precision electronic components in a medical-grade manufacturing environment.
- Conducted functional testing, defect identification, and QA reporting.
- Provided IT technical support for production line equipment.
- Ensured compliance with ISO quality standards.

Sitrack.com - Mendoza, Argentina 2023 - 2024
Hardware & QA Tester

- Testing of GPS telemetry PCBs, including signal validation and firmware flashing.
- Developed manual and automated tests (Selenium) for embedded web interfaces.
- Managed defects and test cycles using Jira.
- Provided IT support to engineering teams and improved test coverage.

Sitrack.com - Chile & Argentina
Quality Control & QA Manager 2005- 2014

- Led QA operations for vehicle tracking hardware and software systems.
- Designed test protocols for PCB, CAN-bus, and serial communication systems.
- Managed the QA team, defined testing standards, and improved product reliability.
- Coordinated with R&D to resolve complex technical issues and enhance release quality.

EDUCATION

- **Full Stack Web Developer | Digital House - Mendoza (2023)**
- **ISTQB Certified Tester | In Progress / Candidate**
- **Electronic Technician | Instituto Técnico (2004)**
